

**MOSBY'S**  
**NURSINGCONSULT**  
THE LATEST KNOWLEDGE FOR THE GREATEST CARE.

## Product Overview

# Product Overview

- **Developed by Elsevier and esteemed advisory board of respected nursing thought leaders**
- **Elsevier is publisher of Mosby and Saunders**
- **URL: [www.NursingConsult.com](http://www.NursingConsult.com)**

# Product Overview

- **Most trusted and comprehensive online resource for nurses**
- **Offers authoritative information to help provide better health care:**
  - **Find answers quickly**
  - **Educate patients**
  - **Stay informed of new developments**
  - **Improve the quality of care**

# Product Overview

- Offers a single destination for the busy nurse
- Easily search to seamlessly find information very quickly. It includes:
  - Latest drug information
  - Patient Education
  - Professional Journals
  - Reference Books
  - Current News
  - Clinical Practice
  - Evidence-based content
  - Care Planning Info

# Advisory Board Helped Develop

**Kathleen G. Andreoli**, DSN, RN, FAAN  
Vice President, Nursing Affairs Dean  
Rush University College of Nursing

**Gina Bufe**, RN, PhD

## Drug Calculators

### IV Dosage: Infusion of a Dose

What is the dose ordered?    ng ▾

Over what amount of time?   Minute ▾

What is the standard dose available?   ng ▾

What is the volume for the standard dose?   cc ▾

Would you like the rate displayed per minute or per hour?  Minute ▾

#### Answer:

If a   dose has been ordered to be infused over  , and the standard dose available is   per  , then infuse   per   of the standard drug by IV infusion.

**Note:** we are using the 60 mg = 1 gr and the 15 min = 1 mL conversion equivalents.

**Formula:** 
$$\left( \frac{\text{Dose Ordered} \times \text{Standard Volume}}{\text{Standard Dose Available} \times \text{Time for Administration}} \right) \times \text{Conversion Factor} = \text{Volume to be Administered}$$

#### Example

IV Dosage calculator and many more...

## Obesity

### What is obesity?

Obesity is defined as the condition of being very overweight and having a body mass index (BMI) that is 30 or greater. BMI is your weight relative to your height. You can find your BMI from a chart.

**Obesidad**

¿Qué es la obesidad?

Se dice que una persona es obesa cuando tiene un gran sobrepeso y su índice de masa corporal, o BMI, es de 30 ó más. El BMI es una medida de su peso en relación con su altura. Puede calcular su BMI usando una tabla.

El tamaño de su cintura también es importante. Es una medida de su grasa abdominal. Sus riesgos de salud, sobre todo de tener diabetes o enfermedades cardíacas, pero también de tener algunos tipos de cáncer, aumentan a medida que su BMI y el tamaño de su cintura aumentan. Una medida de cintura mayor que 40 pulgadas en los hombres y 35 pulgadas en las mujeres aumenta significativamente su riesgo para la salud.

¿Cuáles son los riesgos de la obesidad?

Casi un tercio de todos los adultos son obesos. La obesidad aumenta a medida que la gente envejece.

## Using Journal Search

### Improved Focus

Key in on the information you *really* need with our new improved search **focus** tool.

Enter a medical condition in the search box and use the Focus dropdown to tell us what kind of information will help you the most. You will find the Focus dropdown on your left, below the search terms.

- **Any:** (the default) searches all article with no restrictions on focus.
- **Diagnosis:** finds highly relevant articles about the diagnosis of a condition. It is equally useful for finding information about the use of diagnostic tests.
- **Etiology:** identifies articles dealing with the causes of a disease.
- **Treatment:** finds articles specifically about managing conditions.
- **Prognosis:** searches for articles discussing the prognosis, incidence, mortality, or progression of a disease.

### Article Type

To find only the types of article you are interested in, use the **Article Type** dropdown list. Use it to narrow your search to:

- **All:** (the default) searches all article types with no restrictions.
- **Reviews:** Finds review articles like those found in the Clinics of North America.
- **Cochrane:** Restricts searching to only The Cochrane Database of Systematic Reviews.
- **Opinions:** Prioritizes publications that have been classified in Medline as Comments or Editorials.
- **Trials:** searches for articles containing information about Clinical Trials, Randomized Control Trials and similar studies.

Best of all, you can use these and all of the other journal search options together. *Give it a try today.*

### Also of Interest

Use the **HANDOUT** tab to provide your patients with the information they need.

## About This Book

How to interpret and apply evidence from the health care literature to improve your nursing practice!

## Quick Tips

Click the **Contents** or **Index** tab to browse the topics. Then, click the  to expand and view subtopics. To select another book, click the **Book List** link. Select "**Reference Books**" from the **Search** box list, key in phrase(s) in the **For** box and click the **GO** button to search through all of our books.

## Book Notes

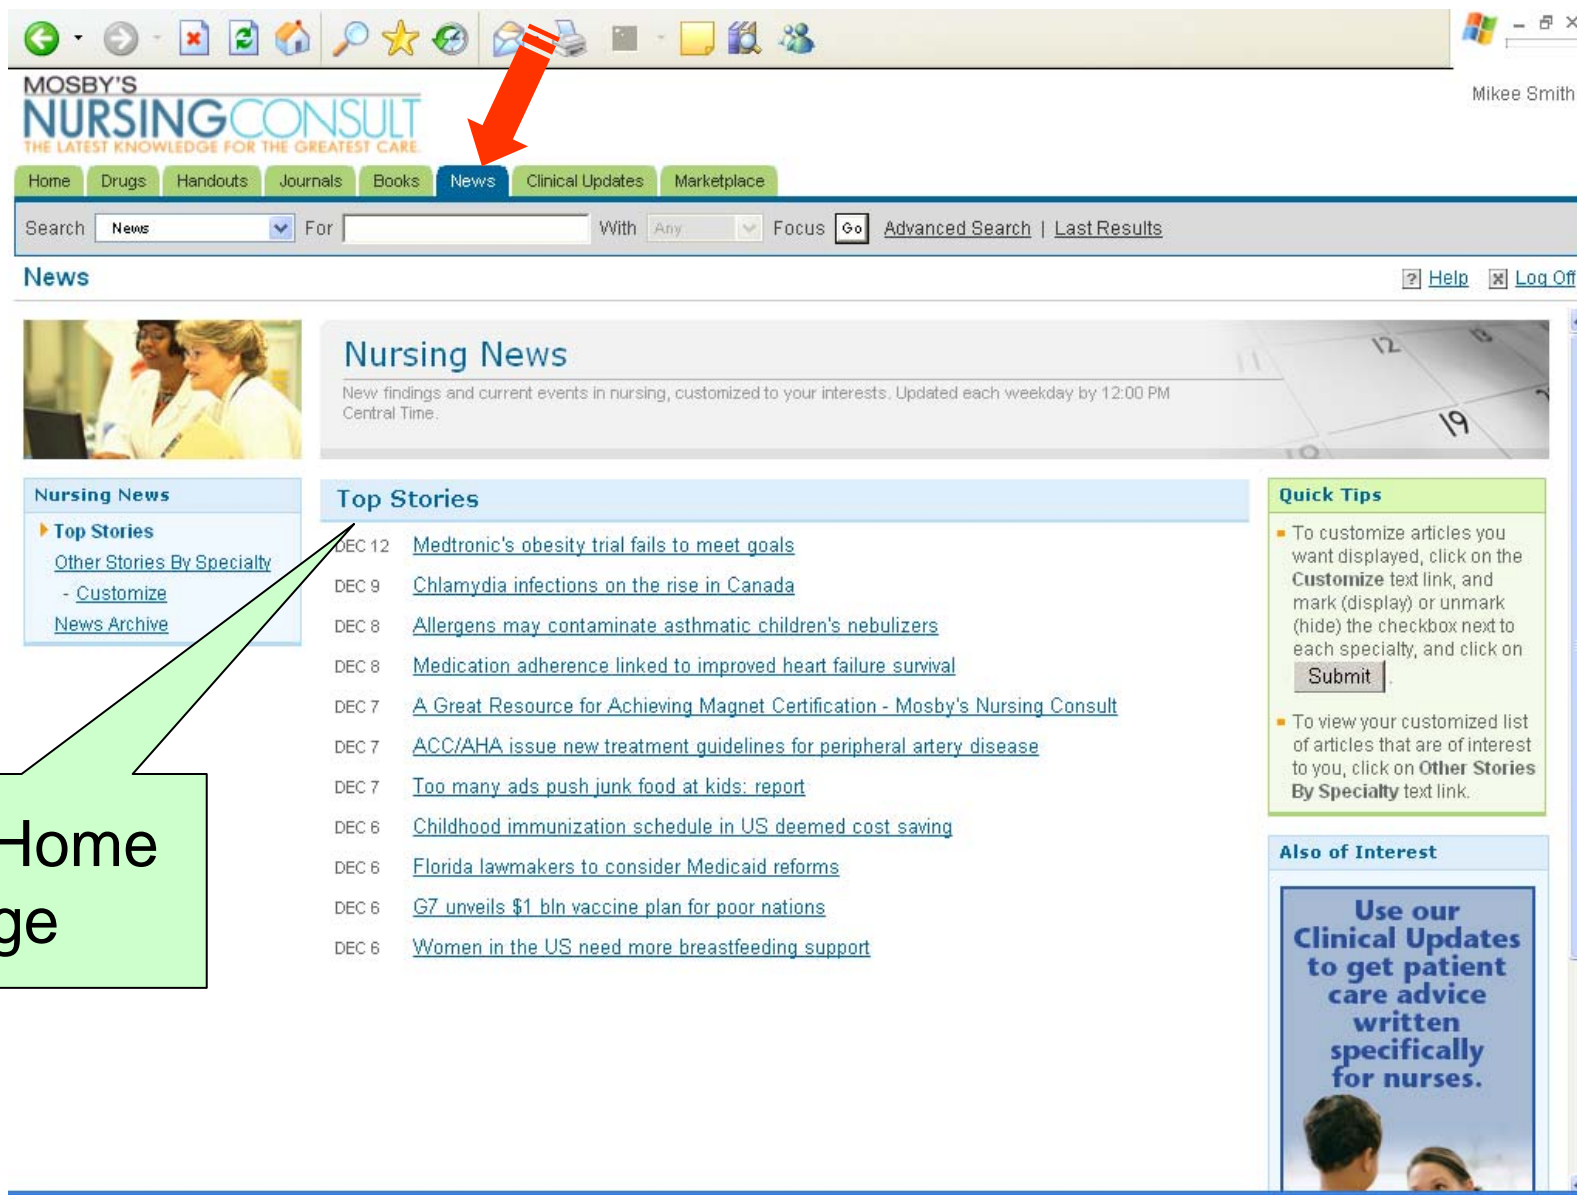

Written in response to numerous requests by nurse practitioners and other graduate faculty for a nursing literature resource, this book is based on the AMA's *Users' Guides to the Medical Literature: A Manual for Evidence-Based Practice* by Drs. Guyatt and Rennie. Revised for the nursing audience, *Evidence-Based Nursing* is a reader-friendly and accessible, features plentiful examples from the nursing literature and adds specific nursing issues such as qualitative research, with direct application for clinical practice. Drs. DiCenso, Ciliska, and Guyatt are three of the leaders in the evidence-based nursing community and command worldwide recognition.

# Search Results

The screenshot shows the Mosby's Nursing Consult search results page. The search query is 'angina'. The results are categorized into three main sections: Results at a Glance, Drug Information, Drug Updates, and Patient Handouts. Each section has a 'More Results...' link. The 'Results at a Glance' section shows 3 monographs. The 'Drug Information' section shows 3 monographs sorted alphabetically, listing Amlodipine Besylate, Amlodipine Besylate: Atorvastatin Calcium, and Amyl Nitrite. The 'Drug Updates' section shows 2 stories sorted by reverse chronological order, listing Fasudil and Montelukast. The 'Patient Handouts' section shows 3 handouts sorted by relevance, listing Angina, Angina: Senior Adult Version, and Angina: Women's Version. A 'Search Results Summary' table is located on the left side of the page.

The screenshot shows the Mosby's Nursing Consult website interface. At the top, there is a navigation menu with links for Home, Drugs, Handouts, Journals, Books, News, Clinical Updates, and Marketplace. Below the menu is a search bar with a dropdown menu set to 'Entire Site' and a search button. The main content area is divided into several sections:

- Welcome To Mosby's Nursing Consult:** A blue box with links for 'What's New', 'Explore', 'About Us', and 'Press Room'.
- Care to Share?:** A green box containing a message about the importance of user feedback and a link to a survey. Below the text is an image of a white iPod.
- What's New:** A green box with the heading 'Welcome to Mosby's Nursing Consult!' and a paragraph of introductory text. Below the text is a bulleted list:
  - find answers quickly
  - educate patients
  - improve the quality of care
- Nursing News:** A grey box with several news items, each with a link and a short summary:
  - [JCAHO re-appoints Fred Brown as Board Chair for 2006](#): Fred Brown and other board committee members appointed.
  - [Medtronic says some pacemakers have faulty wires](#): Medtronic Inc. is advising practitioners of a potential problem in a small number of its Sigma pacemakers.
  - [Heart failure short-term outcome better in US than Canada](#): Study raises questions whether American system provides better acute care whereas the Canadian system provides better chronic care.
  - [Western nations, Asia must focus on AIDS - UN](#): AIDS Executive Director Peter Piot said he wants to highlight the risks to a region that is home to the world's fastest growing economies.
- Use the SEARCH BAR Above to Find the Information You Need:** A blue box with an image of a nurse and a list of benefits:
  - Find answers quickly
  - Educate patients
  - Stay informed of new developments
  - Improve quality of care

A large green call-to-action box is overlaid on the right side of the page, containing the text: "Complete our survey! Let us know what you think about Mosby's Nursing Consult." A white arrow points from this box to the 'Care to Share?' section.

**Thank you**
