

FRIDAY, APRIL 15, 2016

8:00 AM – 6:00 PM

Post Graduate Courses

(separate registration and cost required)

- Clinical Pulmonary Medicine: A Case-Based Review
- Advanced Mechanical Ventilation
- Lung Cancer Education Program: A Multidisciplinary Team-Based Approach
- Thoracic Ultrasonography for the Pulmonary and Critical Care Consultant

SATURDAY, APRIL 16, 2016

8:00 AM – 5:00 PM

Exhibit Hall OPEN

9:45 AM – 11:15 AM

- Problem-Based Learning: ARDS Imitators *(separate registration required)*
- Frontiers in Lung Transplant 2016: An international update and perspective
- Air pollution and chronic cardio-pulmonary diseases
- Management of Severe Sepsis and Septic Shock: Current and Future Directions
- Contemporary Pharmacotherapy for PAH
- Diagnosis and Management of Benign Central Airway Disorders
- Diagnosis and Staging of Lung Cancer
- Literature Review: Pulmonary Medicine
- Case Reports
- Abstracts

9:45 AM – 11:45 AM *(separate registration required for Simulation sessions)*

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Home-based Sleep Apnea Testing
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

11:45 AM – 12:45 PM

- Abstract Posters

1:00 PM – 2:00 PM

- PCCM subspecialty training around the world
- Literature Review: Sleep Medicine
- 2016 Update on Critical Care Issues in Pregnancy
- Special Populations in the ICU
- Noninvasive Ventilation for Respiratory Failure
- Growing Up With Asthma
- Lung Cancer Screening
- Case Puzzlers
- Problem-Based Learning: Cough *(separate registration required)*
- Case Reports
- Abstracts

1:00 PM – 3:00 PM *(separate registration required for Simulation sessions)*

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Advanced Positive Airway Pressure Devices and Downloads
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

2:15 PM – 3:45 PM

- What's New in Mechanical Ventilation?
- Recent Advances in Tuberculosis: From new diagnostics to novel therapeutics
- 2016 Update on Pulmonary Issues in Pregnancy
- COPD 2016 – State of the Art
- Global Perspectives on Critical Care Ultrasonography
- Diagnosis and Management of Malignant Pleural Effusions
- How to Setup a Sleep Lab
- IPF: State of the Art

- Problem-Based Learning: Lung Cancer Screening *(separate registration required)*
- Case Reports
- Abstracts

3:30 PM – 5:30 PM *(separate registration required for Simulation sessions)*

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Home-based Sleep Apnea Testing
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

4:00 PM – 5:00 PM

- Controversies in Bronchial Thermoplasty
- Literature Review: Critical Care
- Pulmonary Rehabilitation – Starting An Effective Program
- Direct Oral Anticoagulants in VTE
- Difficult to Control Asthmatic
- Problem-Based Learning: Chest Radiology *(separate registration required)*
- Case Puzzlers
- Case Reports
- Abstracts

5:15 PM – 6:15 PM

- Best Practice in Acute Respiratory Distress Syndrome
- COPD Phenotypes
- Asthma: State-of-the-Art
- High Altitude Illness
- Pulmonary Complications of Connective Tissue Disease
- The Challenging Sleep Apnea Patients
- Interactive Review of Occupational Lung Diseases
- Advances in Pleural Disease
- Problem-Based Learning: Venous Thromboembolism (*separate registration required*)
- Case Reports
- Abstracts

SUNDAY, APRIL 17, 2016**8:00 AM – 3:00 PM****Exhibit Hall OPEN****8:30 AM – 9:30 AM**

- CHEST Challenge
- Extracorporeal membrane oxygenation for Acute Lung Injury
- Fungal Lung Infections
- Innovations in Medical Education
- The COPD Exacerbation: Treatment and Prevention
- The Central Sleep Apneas
- Problem-Based Learning: ARDS Imitators (*separate registration required*)
- The Future of PAH: Novel Imaging, Monitoring, & Therapeutic Approaches
- Algorithmic Approach to Cystic and Nodular Lung Disease
- Case Reports
- Abstracts

8:30 AM – 10:30 AM (*separate registration required for Simulation sessions*)

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Advanced Positive Airway Pressure Devices and Downloads
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

9:45 AM – 11:15 AM

- Diagnosis and management of obstructive sleep apnea
- Multidisciplinary Approach to Lung Cancer
- Principles and Practice of Modern Hemodynamic Monitoring
- Fundamentals of Interventional Bronchoscopy
- Sonofest: Ultrasound Cases One Should Never Miss
- Chronic Cough
- Problem-Based Learning: Cough (*separate registration required*)
- Meet the New CHEST Guidelines
- Case Reports
- Abstracts

10:45 AM – 11:45 AM

- Bronchial Thermoplasty Simulation Demo Session (Non-CME)

11:45 AM – 12:45 PM

- Case Report Posters

12:00 PM – 2:00 PM (*separate registration required for Simulation sessions*)

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Home-based Sleep Apnea Testing
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

1:00 PM – 2:00 PM

- Literature Review: Pulmonary Medicine
- Surviving Sepsis Guidelines: Case Based Application
- Update on Bronchiectasis
- Manuscripts for Publication
- The Diagnosis of Sarcoidosis
- Basics of Sleep Apnea
- Community Acquired Pneumonia in 2016
- Basics in Pulmonary Function & Cardiopulmonary Exercise Testing
- Problem-Based Learning: Lung Cancer Screening (*separate registration required*)
- Case Reports
- Abstracts

2:15 PM – 3:45 PM

- Advances in Pleural Infection
- Acute Pulmonary Embolism - What Do You Do?
- Advances in the care of pneumonia in the ICU
- New insights in nontuberculous mycobacterial (NTM) lung disease
- Tumor Board
- Evidence-based Management of COPD: A Global Perspective
- Problem-Based Learning: Chest Radiology (*separate registration required*)
- Case Puzzlers
- Case Reports
- Abstracts

2:30 PM – 4:30 PM (*separate registration required for Simulation sessions*)

- Simulation: Ultrasonography for the Assessment of Cardiopulmonary Failure
- Simulation: Bronchoscopy Procedures: EBUS-TBNA, Radial EBUS, and Endobronchial Blockers
- Simulation: Mechanical Ventilation: Techniques to Optimize Care of the Critically Ill Patient
- Simulation: Advanced Positive Airway Pressure Devices and Downloads
- Simulation: Newer Techniques and Equipment to Assess Lower Airway Function

4:00 PM – 5:00 PM

- Airway Overlap Syndromes
- Respiratory Disease in the Elderly
- Management of Status Asthmaticus
- The Next Epidemic
- Non CPAP Treatment for OSA
- Technology in Chest Medicine
- Small Airway Disease
- Problem-Based Learning: Venous Thromboembolism (*separate registration required*)
- Case Reports
- Abstracts
